

BAAPS SUPPORT

BAAPS Support Advice & Pastoral Care Panel

BAAPS Support recognises that many of our members undergo significant stress when faced with difficult cases or situations within their aesthetic practices. We recognise that we also have many experienced and insightful members who can provide support, advice and pastoral care to others in these difficult circumstances. This support is invaluable to those who are in difficulty. We are creating a panel who are willing to be available to provide such support to other members in difficulty or under stress.

This is not a medicolegal panel and advice and support given does not replace medicolegal advice if this is required. Patient specific advice given is viewed as a medical opinion with the accompanying responsibilities and not the primary function or aims of this panel.

If you would like to join the panel, please complete the form below and submit to office@baapssupport.co.uk.

I wish to join the Mentorship & Pastoral Care Panel.

I have been in practice as a Consultant Plastic Surgeon for at least 5 years in aesthetic surgery.

I agree that BAAPS Support can provide my contact details to BAAPS Support members who contact the Panel seeking support and advice.
